

**Dear friends, organizers, participants and guests of the 35th international specialized exhibition "Agrocomplex 2025" and Agro-industrial forum!**

Welcome to one of the largest industry events in Russia - the international exhibition "Agrocomplex" and the agro-industrial forum!

The international exhibition "Agrocomplex" is an effective platform for introducing agricultural specialists to new technologies and best practices in the agro-industrial complex. Of course, an event of this scale contributes to the growth of recognition and investment attractiveness of Bashkortostan.

The region's farmers have something to discuss at the forum, something to share with colleagues, including those from other regions and countries.

Small businesses and large agribusiness are developing in a balanced manner in Bashkortostan. The number of farms is growing, the construction of modern dairy complexes, fattening sites for beef cattle continues, the program for the development of the food and processing industry of the Republic of Bashkortostan is being successfully implemented.

This year, the exhibition celebrates its anniversary, which symbolizes not only our history, but also our ambitious plans for the future.

The stable interest of enterprises and industry specialists in this exhibition is evidence of our common desire to modernize and develop Russian agriculture.

The rich business program of the Agro-Industrial Forum includes a plenary session: Export in the agro-industrial complex: goals, trends and key development guidelines 2030".

Much attention will be paid to the development of professionalism and the training of future personnel of the agro-industrial complex.

For young specialists, a scientific and practical conference "Innovative technologies as a development factor" and a section "Startups in agricultural universities" will be held.

Traditionally, we are waiting for guests from all over Russia, representatives of foreign countries at the exhibition. We will be very pleased to communicate at the sites of our forum with both old friends and new partners.

**Deputy Prime Minister  
of the Government of the Republic of Bashkortostan -  
Minister of Agriculture of the Republic of Bashkortostan**
